## **1. Introduction:-**

Pharmacist Information Management System (PIMS) is a web based application. This system is also enables pharmacist to apply online for getting the profession and practice of Pharmacy in the State of Assam. The APC grants registration and renewal thereof to the eligible candidate possessing requisite qualifications. The entire process starting from online apply to document verification by office user and issue of certificate being carried out on online. In this system, the existing workflow of different users has been managed and role access has been provided to the stakeholders to help them in tracking of the work progress and status report at any point of time.

The system has the facility of registration of applicant like student/pharmacist for pharmacy authorization certificate through the web portal. The Pharmacist Information Management System is only for the pharmacy student to provide a better solution for pharmacy certificate. The proposed system can track all the pharmacist details applied to Assam Pharmacy Council. The interface can help the administration to monitor all the application effectively. Applicant can get data by providing their log in id and password for their date of physical verification. Applicant can track the status of their application through the system. The system provides various analytical and graphical reports based on the MIS. Applicant can also access the system and apply online for Grant/Renew of pharmacy certificate in the state of Assam and know the status at any point of time.

## **2. Purpose of User Manual:**

This User Manual provides complete information about the usage of the system. The user can refer the user manual to understand the process and utilize the system effectively. This manual includes a description of the system functions and features, contingencies and alternate modes of operation, and step-by-step procedures for easy system access and use.
